Series)Sponsor or
Issuing Authority: None indicated

No Pages: 247 Language: Chinese

Area of Coverage: China

Subjects Covered: Monetary, wage, and rent system; profits and interest; com-
modity production and exchange; forms of capital and capital formation.

Scholarship Evaluation: Textbook on economics.

Review: Theoretical and historical treatment of the Chinese economic system.
 According to the author's preface, this book is the second revision
 of the original textbook published in 1946. The first two editions
 of the book were written from the standpoint of the classical school
 of economics; the present revision presents the Marxist interpretation
 of the modern semicolonial and semifeudal economic development of China
 and describes the new economy of Communist China.
